Wealthsurance Growth Plan SP

ageasFEDERAL
LIFE INSURANCE

Make your money do more with a single move.

A unit linked plan that lets you enjoy the benefit of market returns by investing just once.

IN THIS PLAN, THE INVESTMENT RISK IN THE INVESTMENT PORTFOLIO IS BORNE BY THE POLICYHOLDER.

Linked insurance products do not offer any liquidity during the first five years of the contract. The policyholder will not be able to surrender/ withdraw the monies invested in linked insurance products completely or partially till the end of the fifth year.

A non-participating unit linked single pay life insurance plan

In today's fast moving world, we want things to not demand too much of our time but still give the desired output. Possibly, we expect the same from our investments too. Wouldn't you prefer an investment option that doesn't compel you to remember due dates and thereby, doesn't further burden your already busy schedule and still helps you get the desired output?

Presenting

Ageas Federal Wealthsurance Growth Insurance Plan SP

Ageas Federal Life Insurance recognises your expectation and presents to you Ageas Federal Wealthsurance Growth Insurance Plan SP. A one-time investment plan, whereby paying the premium once, you can enjoy the growth of your wealth. How does Wealthsurance plan work?

The investment that you make towards your Wealthsurance policy is managed by way of two accounts - (a) Investment Account and (b) Insurance Account.

My Investment Account

- ◆ The premium that you pay (less applicable charge) is invested into the funds chosen and in the proportion as specified by you. Ageas Federal Investment Basket offers you 9 fund options to choose from, which helps you make an investment decision as per your risk appetite.
- ◆ The fund value in your investment account reflects the wealth built over time from your premium contribution and the returns generated from the investment options chosen by you.

My Insurance Account

You can choose the sum assured amount depending upon the amount of financial cover you want for your family. It is a percentage of your premium payment. The charges for this benefit are deducted from your investment account.

How to customise the plan?

With easy investment options to choose from, Wealthsurance lets you create an insurance policy according to your needs in just 3 simple steps:

Step 1: Choose the premium amount that you wish to invest and the policy term, i.e. the period for which you wish to invest.

Step 2: Choose from the 9 fund options available with us basis your risk appetite.

Step 3: Choose the sum assured for the financial protection of your loved ones.

What are the key benefits of Wealthsurance?

Convenience of one-time payment

With Wealthsurance, you pay just once and can enjoy growth on your investments along with a life cover.

Investment amount as per your financial goal

You can invest any amount starting from ₹25,000. There is no upper limit to the premium amount. Since this is a one-time investment plan, a higher investment will let you build more wealth.

Flexibility to manage your investments

Based on your risk appetite, you can decide and tell us how to invest your money. Or you can also manage your investments during the term by switching between funds at no extra cost. You get to choose from our wide bouquet of funds - Ageas Federal Investment Basket.

Guaranteed loyalty additions to help your savings grow faster

Wealthsurance gives an added impetus to your investment account through Guaranteed Loyalty Additions. These are credited to your investment account at the end of the 5th policy year and every 5 years thereafter subject to the policy being in force, to reward you for staying invested for the long term. Guaranteed loyalty additions help increase your earnings, which in turn, results in adding to your returns.

Guaranteed loyalty additions will be 2.5% of the average fund value in the investment account over the last 36 months preceding the loyalty unit allocation date. In case you have invested in multiple funds, guaranteed loyalty additions will be added to each fund in the same proportion as the fund value in each fund bears to the total fund value.

Illustration

A 30 year old healthy male has invested a single premium of ₹50,000 for a period of 10 years. The sum assured chosen is ₹5,00,000. The loyalty additions will be as follows.

What are the key benefits of Wealthsurance? (contd...)

At assumed gross rate of return of 8%

	Loyalty addition rate (A)		
At the end of 5 th Policy year	2.50%	₹56,988	₹1,425
At the end of 10 th Policy year	2.50%	₹72,979	₹1,824
Fund Value at maturity (including Loyalty Additions)			₹80,079

At assumed gross rate of return of 4%

	Loyalty addition rate (A)		
At the end of 5 th Policy year	2.50%	₹49,600	₹1,240
At the end of 10 th Policy year	2.50%	₹51,381	₹1,285
Fund Value at maturity (including Loyalty Additions)			₹52,806

The benefit illustration is based on projected gross investment rates of returns of 4% and 8% respectively. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back as the value of your policy is dependent on a number of factors including future investment performance. This illustration

does not represent the performance of any particular investment option from the Ageas Federal Investment Basket.

Death benefit

Death benefit is paid to the beneficiary (nominee/ legal heir) in the event of death of the insured person due to any cause, natural or accidental. Death benefit paid is the higher of the following amounts:

- ◆ Sum assured or
- ◆ Fund value in your investment account or
- ◆ 105% of the single premiums received up to the date of death

Maturity benefit

Maturity benefit is equal to the fund value in your investment account on the date of maturity. Upon payment of the maturity benefit, your Wealthsurance plan is terminated.

Settlement option

If you so choose, you need not withdraw the entire maturity benefit on the maturity date. You can choose to withdraw it in instalments, within 5 years from the maturity date. The instalments shall be paid annually, at beginning of each year with instalment of first year being paid at maturity.

During the settlement period, in case of death of the life assured, higher of available Fund Value or 105% of Single Premiums received up to the date of death shall be paid and applicable mortality charges shall be deducted. Further, the policy shall participate in the performance of funds and investment risk is borne by the recipient of the Maturity Benefit. Throughout the settlement period funds shall continue to remain invested as on maturity date unless switching has been exercised by the policyholder. FMC shall be continued to be levied. No other charges shall be levied. No Guaranteed Loyalty Additions shall be added during this period. Switching shall be allowed during this period. Partial withdrawal shall not be allowed during this period. The recipient of the Maturity Benefit has the option to take the remaining fund value as a lump sum payment at any time during the settlement period (in such a scenario the policy will terminate and all rights, benefits and interests under the policy will stand extinguished).

Choice of settlement (in years) y	Instalment paid period (expressed as a percentage of Fund Value available at the end of each year during settlement period)				
	Year 1	Year 2	Year 3	Year 4	Year 5
2	50%	100%	-	-	-
3	33%	50%	100%	-	-
4	25%	33%	50%	100%	-
5	20%	25%	33%	50%	100%

You may choose from any of the settlement options listed below at least 3 months before the maturity date. You will continue to have the flexibility to withdraw the entire fund value at any time during the settlement period.

Tax benefits

Tax benefits under section 80 C and 10(10D) are applicable as per provisions of the Income Tax Act, 1961.

You are advised to consult your tax advisor for details. Please note that tax laws may change from time to time.

What are the other benefits of Wealthsurance?

Flexibility with liquidity benefits

Wealthsurance allows you to create wealth over the long term. At the same time, we recognise that you may require funds before maturity of the plan. Hence, Wealthsurance offers liquidity with:

- (a) Partial Withdrawals, and
- (b) Surrender

a. Partial Withdrawals after 5 policy years:

Wealthsurance allows you to not only create wealth over the long term but also gives you access to your money in case of any need before planned maturity. You can make partial withdrawals from your investment account after 5 policy years, any time during the policy term, as long as the policy is in force. For further details, please refer to the 'Partial withdrawals' section under terms and conditions.

Reduction in death benefit following a partial withdrawal

The minimum Death Benefit of 105% of the single premium received till the date of death will be reduced by partial withdrawal made during two-year period immediately preceding the death of the life assured.

In the event of the death of the insured person, the company will deduct the total of any partial withdrawals made in the two years preceding the date of death from the basic Sum Assured. The company will reduce the mortality charge correspondingly due to reduction of sum at risk.

b. Surrender value after 5 policy years:

By investing in Wealthsurance, you are making a long-term commitment towards creating your wealth. However, Wealthsurance allows you to surrender your plan before planned maturity in case of emergencies. This plan has a lock-in period of 5 years.

In case you surrender the policy after completion of 5 policy years, we will pay you the entire fund value as on the date of surrender. However, in case of surrender in the first 5 policy years, we will credit the fund value less the discontinuance charge at the end of the lock-in period, to the discontinued policy fund, and the insurance benefit will cease. At the end of the lock-in period, we will terminate your policy and refund the proceeds of the discontinued policy fund. For further details, please refer to the 'Surrender/discontinuance of the policy' section under terms and conditions.

Alter your investment options with switching

Your investment preferences may change over time. Hence, you can change the mix of your investment options by switching between funds. This feature allows you to shift your investment from one investment fund to another fund option without paying anything extra.

Change the amount of insurance benefit as per your changing needs

Over time, your insurance needs may also change. Wealthsurance allows you to increase or decrease the amount of insurance benefits. Any increase in benefits is subject to the maximum sum assured requirements and acceptance after underwriting. Any reduction is subject to minimum levels as required by the plan being maintained.

Ageas Federal Investment Basket: Simple tools for building your wealth

The power of Wealthsurance lies in the wide choice of investment options it offers, designed to meet the needs of all types of investors. You have great flexibility in creating and managing your wealth based on your return expectations and risk appetite. The full range of investments we offer is called the Ageas Federal Investment Basket. You can also switch and change your investment options, from time to time, as per your requirements. The information on all the funds available under the Investment Basket is also provided on our website, www.ageasfederal.com. We offer a range of funds that invest in stocks, bonds and money market. The returns on these funds are dependent upon the market performance. Risk and returns will vary from fund to fund.

Manage your investments: Types of Investment Fund Options

We offer two ways in which you can manage your investments:

Do-it-yourself: You can decide to invest in the various options and change them from time to time, as you wish. This is suitable when you have a specific idea of where you wish to invest or you have the time and inclination to manage your investments.

Leave-it-to-us: Alternatively, you can leave it entirely to us to manage your investment strategy from time to time by simply indicating how much risk you are prepared to take. We give you a choice of three risk levels: Cautious, Moderate and Aggressive.

These unit-linked funds are open-ended funds which invest in equity, debt and/or money market as per their investment objectives. The Net Asset Value (NAV) of each fund is published on a daily basis. You can invest your premiums into, switch into or switch out of any fund(s) at any time at the prevailing day's NAV. Your gain or loss is the difference between the value at which you invested and the value at which you exited. Remember, the NAV depends on the market value of the underlying investments. The expected risk and returns will vary from fund to fund.

Minimum allocation to a fund:

The minimum amount of premium allocated to any investment fund should be at least 15% of the single premium.

Unit price (Net Asset Value) formula:

The Net Asset Value (NAV) will be determined using the market value of assets in accordance with regulatory requirements.

$$\text{NAV} = \frac{\text{Market value of investments held by the fund} + \text{Value of current assets} - \text{Value of current liabilities \& provisions if any}}{\text{Number of units existing on valuation date (before creation/redemption of units)}}$$

Fund Management Charge is levied as a percentage of the value of assets and will be appropriated by adjusting the NAV on a daily basis.

The NAV calculated as per the above formula shall be declared on our website daily in accordance with IRDA regulations. (Except on days when it is not possible to value some or all of the assets of a unit linked fund due to Force Majeure conditions)

Applicable NAV:

New business premiums will be allocated units at the NAV as on the date of commencement of the policy after completion of the proposal.

Switches in the investment fund(s) received before the cut-off time at our designated office through local cheque or demand draft payable at par at the place the premium is received will be allocated units at the same day's NAV. If received after the cut-off time, the units will be allocated at the next business day's NAV.

Switching:

At any time during the policy term and the settlement period, you may instruct us in writing to switch some or all of your units from one unit-linked fund to other unit-linked fund(s). We will cancel the units

in the old fund and allocate units to the new fund(s) to activate the switch. Switches advised up to 3:00 pm will be processed at that day's NAV, while switches advised after 3:00 pm will be processed at the following day's NAV. There is no restriction on number of switches allowed in a policy year.

In case of cancellation of units for charges and valid notification and instructions received at our designated office for switches out, partial withdrawals, surrenders and death claims, we will apply the same day's NAV if the request is received before the cut-off time. Else, the request will be processed at the next business day's NAV.

The cut-off time will be as per the IRDA guidelines, which, at present is 3.00 pm.

Investment guidelines:

All segregated funds will be managed, subject to compliance with applicable statutory regulations and guidelines. At present, investments in other than approved securities (including third-party mutual funds beyond 5% of the total fund value) cannot exceed 25% of the total fund value. Also, all the funds can trade in derivatives, invest in third-party funds and engage in short selling to the extent permitted by the applicable regulations.

New funds:

Ageas Federal will introduce new funds, from time to time, to meet changing needs of investors, market conditions and regulatory environment. Ageas Federal may also modify the existing funds subject to IRDA approval. Similarly, old funds may be withdrawn or merged.

Account Statement:

We will send you the account statement every year at the policy anniversary.

What are the charges associated with Wealthsurance?

Premium Allocation Charge

The premium allocation charge is deducted from the premium paid and the balance is invested in investment options chosen by the policy owner.

Premium allocation charge as a percentage of single premium is given below:

Policy year	Year 1
Premium Allocation Charge	0.50%

Policy Administration Charge

Policy administration charge is deducted monthly in advance by cancellation of units. Policy administration charges as a percentage of the single premium paid are given below:

Policy Year	Year 1 to 5	Year 6 onwards
Policy Administration Charges	0.10% p.m.	0.05%p.m.

Policy administration charge is subject to a maximum of ₹500 per month

Mortality Charge

To meet the cost of life insurance benefit, mortality charge is deducted at the beginning of each month by cancellation of units from your fund value, in your investment account.

- ◆ The mortality charge is $1/12^{\text{th}}$ of the mortality rates for the age as per last birthday of the life insured at the time of deduction of the mortality charge multiplied by the sum at risk divided by 1,000.
- ◆ The sum at risk if any, is higher of
 - a) Total sum assured;
 - b) 105% of Single Premiums Received up to the date of death
- ◆ If the total fund value is higher than greater of the total sum assured and 105% of the Single Premiums Received, then the sum at risk is nil and we will not deduct any mortality charge.

Mortality charges (excluding Goods & Services Tax, cess and any other statutory levies) for sample ages for a healthy adult are as below:

Note: In case the insured person is a minor, the minimum policy term should be such that the insured person turns at least 18 years of age at maturity. For example, if the age of the child is 5 years, then $18-5 = 13$; hence, the next higher policy term option available is 15 years.

Terms and Conditions

Partial Withdrawals

By investing in Wealthsurance, you can create wealth over the long term. However, in case you require funds for any purpose, you are allowed to make partial withdrawals after 5 policy years. The following conditions apply:

- ◆ Total amount of partial withdrawals in a policy year cannot exceed 20% of the fund value at the beginning of that policy year.
- ◆ The minimum amount of any partial withdrawal is ₹10,000. Also, the fund value after the partial withdrawal should not be less than ₹10,000.
- ◆ In a policy where the life insured is a minor, partial withdrawals will be allowed only after the insured person attains the age of 18 years.
- ◆ Partial withdrawals will not reduce the minimum death benefit of 105% of the total premiums paid till the date of death.
- ◆ Units equivalent to the value of each withdrawal are cancelled from the unit-linked funds according to the proportions specified by the policy owner.

Reduction in death benefit following a partial withdrawal:

The minimum Death Benefit of 105% of the single premium received till the date of death, will be reduced by partial withdrawal made during two-year period immediately preceding the death of the life assured.

In the event of the death of the insured person, the company will deduct the total of any partial withdrawals made in the two years preceding the date of death from the basic Sum Assured. The company will reduce the mortality charge correspondingly due to reduction of sum at risk.

The company will also reduce the mortality charge correspondingly due to reduction of sum at risk. At no time will the death benefit be less than 105% of the single premium received till the date of death.

In case of surrender/ discontinuance of the policy

Within 5 years from the start date of the policy

The policyholder has an option to surrender any time during the lock-in period. Upon receipt of request for surrender, the fund The policyholder has an option to surrender any time during the lock-in period. - ◆ Such discontinuance charges are mentioned under discontinuance charges respectively
- ◆ The policy shall continue to be invested in the discontinued policy fund and the proceeds from the discontinuance policy fund shall be paid at the end of lock-in period. Only fund management charge can be deducted from this fund during this period. Further, no risk cover shall be available on such policy during the discontinuance period.

Segregated Discontinued Policy Fund

The Discontinuance Policy Fund will provide a minimum guaranteed interest rate of 4% p.a. from the date of discontinuance of the policy or such rate as decided by the company with the prior approval of IRDAI or as per the prevailing regulations. The excess income earned in the discontinued policy fund over and above the minimum guaranteed interest rate shall also be apportioned to the discontinued policy fund in arriving at the proceeds of discontinued policies and shall not be made available to the shareholders. We will also recover the Fund Management Charge levied on the Discontinuance Policy Fund after ensuring the guaranteed return.

Terms and Conditions (contd...)

Discontinuance Policy Fund

Discontinuance Policy Fund is available only on discontinuance of the policy.

Fund	Investment Objective	Investment Pattern	Allocation
Discontinuance Policy Fund (ULIF07301/07/10DISCON135)	Invests in a portfolio of money market and Government securities to generate minimum return as prescribed by IRDA from time to time. Also, to keep the volatility of returns low, the fund invests in instruments with minimal market risk, and to minimise the credit risk, the fund invests in money market and high quality fixed income instruments.	Money Market instruments	0 to 40%
		Government Securities	60 to 100%

Discontinuance charge

In the table, SP denotes Single Premium and FV denotes Fund Value on date of discontinuance.

After 5 years from the start date of the policy

In case you wish to surrender/discontinue the policy after 5 years from the start date of the policy, we will terminate the policy. The fund value will be paid to you and the insurance benefits would cease.

Policies issued under Married Women's Property Act

A useful feature under Wealthsurance is that you will be able to create exclusive funds for the benefit of your loved ones which you can be sure no one else will be able to access. These funds are legally protected from creditors and claimants on estate such as legal heirs, parties to disputes or creditors. Under Section 6 of the Married Women's Property Act, 1874, a married man can take an insurance policy on his own life and express it to be for the benefit of his wife or children. When such intent is expressed on the face of the policy, it shall be deemed to be a 'trust' for the benefit of the named beneficiaries and it shall not be subject to the control of the husband or his creditors or form a part of his estate. The Act also provides that nothing contained in the provision shall operate to destroy or impede the right of any creditor to be paid out of the proceeds of any policy of assurance which may have been effected with the intent to defraud creditors.

Nomination

Nomination will be allowed as per provisions of section 39 of Insurance Act, 1938 as amended from time to time.

Assignment

Assignment and transfer of insurance policies will be allowed as per provisions of section 38 of Insurance Act, 1938 as amended from time to time.

For further information on Section 38 and 39 of the Insurance Act, 1938 you may contact your intermediary, or refer our website or refer The Insurance Laws (Amendment) Act, 2015 for the relevant sections.

Risks of Unit-Linked Products

Unit-linked life insurance products are different from the traditional insurance products and are subject to risk factors. Premiums paid in unit-linked life insurance policies are subject to investment risks associated with capital markets and NAVs of the units may go up or down, based on the performance of the fund and factors influencing the capital market. The insured is responsible for his/her decisions.

Ageas Federal Life Insurance Company Limited is the name of the Insurance Company and Ageas Federal Wealthsurance Growth Insurance Plan SP is the name of the unit-linked life insurance contract and does not in any way indicate the quality of the contract, its future prospects, or returns. The various funds offered under this contract are the names of the funds and do not in any way indicate the quality of these plans, their future prospects and returns. The past performance of the funds is not indicative of the future performance. Life insurance coverage is available in this plan.

Please be aware of the associated risks and the applicable charges from your insurance agent or intermediary or policy document issued by us.

Suicide Exclusion

In case of death due to suicide within 12 months from the date of commencement of the policy or from the date of revival of the policy, as applicable, the nominee or the beneficiary of the policyholder shall be entitled to the fund value, as available on the date of intimation of death.

Further any charges other than FMC recovered subsequent to the date of death shall be added back to the fund value as available on the date of intimation of death.
