

When it comes to a life-threatening condition,
your family is not alone.

We are there for you during the time of distress

There is a lot on your mind when you are ill – anxieties, uncertainties and even fear. You want the best treatment, be it for yourself or your family especially if diagnosed with a critical illness. Critical illness can also mean loss of income and change in lifestyle. In such a situation, the biggest concern is to be able to afford the treatment. The financial burden could be far more than what an indemnity health plan which pays hospital bills, would cover. Given the ever rising healthcare costs in India, one major ailment is all it takes to wobble your financial health. With Future Criticare, we lessen the burden on the financial front so that you can take care of your health.

What is Future Criticare

Future Criticare offers monetary benefit to take care of miscellaneous expenses in case you are diagnosed with a critical illness. You can opt for this plan in addition to other medical plans with minimum paperwork. It is a standalone critical benefit plan that insures you against twelve critical illnesses. Should you ever be diagnosed with one of these, you will be provided with a fixed sum, regardless of your actual medical expenses and other health indemnity policies. Subsequent to 90 days from the policy's commencement, the policy shall cover the following major medical illnesses and procedures, subject to survival of 28 days from the date of diagnosis / procedure.
