6. Investment Strategies in your policy

IndiaFirst Life Wealth Maximizer Plan boasts of multiple options of investment strategies. You can choose and opt for any one of the below strategies to ensure that you are getting the optimum returns out of your premiums.

A. Automatic Trigger Based Investment Strategy (ATBIS)

Before the Policy Commencement Date or at any policy anniversary, you may opt for ATBIS if you want to enjoy the upside of market linked investment while minimizing the downsides. This investment strategy will secure your returns regularly and provide you with a balanced portfolio over the years.

In case you opt for ATBIS we will put your funds in Equity1 Fund and automatically transfer the earnings on your funds in Equity1 Fund to Debt1 Fund based on a predefined trigger rate of 10%.

In respect of funds in Equity1 Fund, at the end of each day we will check each customer account to see if the return on the net amount of money invested in the Equity1 Fund (after allowing for Premium Allocation Charge, Policy Administration Charge, Mortality Charge, switch in and switch out) has crossed a target rate of 10%. In case the return is 10% or higher, the amount equal to the appreciation will be transferred to the Debt 1 Fund. i.e. if the value of units in the Equity1 Fund is more than 10% of the net amount put in Equity1 Fund, the amount equal to the appreciation will be shifted to the Debt1Fund.

You have the option to cancel the Automatic Trigger Based Investment Strategy for future transactions by submitting a written request to us anytime during the Policy Term.

B. Fund Transfer Strategy

Timing the market is almost impossible and never profitable. Instead, enter the market systematically and enjoy the benefits of rupee cost averaging. Before the Policy Commencement Date or at any policy anniversary, you may choose the Fund Transfer Strategy to earn enhanced systematic returns from the equity market over a period of time.

You can select your fund options in this strategy, where your premium after deduction of applicable charges will be allocated to chosen debt oriented fund, along with existing units in that fund, if any. The units in the chosen debt oriented fund are then transferred systematically on a monthly basis to the chosen equity oriented fund in the following way:

Policy Month 1 - 1/12 of the units available at the beginning of the policy month 1

Policy Month 2 - 1/11 of the units available at the beginning of the policy month 2

Policy Month 3 - 1/10 of the units available at the beginning of the policy month 3

Policy Month 11 - 1/2 of the units available at the beginning of the policy month 11

Policy Month 12 - Balance units available at the beginning of the policy month 12

All the future premiums will also follow the same pattern as long as Fund Transfer Strategy is active. This strategy is applicable to the Annual and Single mode of premium payment only.

You have the option to cancel the Fund Transfer Strategy for future transactions by submitting a written request to us anytime during the Policy Term

In case of revival when the annual premium is not paid in the commencement month of the policy year, then this strategy will be applicable as follows:

e.g. If the policy is revived in the 9th month from due date of first unpaid premium; then strategy will be applicable from policy month 9 onwards i.e. with 1/4 of the units available at the beginning of the policy month 9, 1/3 of the units available at the beginning of the policy month 10, 1/2 of the units available at the beginning of the policy month 11 and balance units available at the beginning of policy month 12

C. Age Based Investment Strategy

Before the Policy Commencement Date or at any policy anniversary, you should opt for this strategy if you want 'your money' to act 'your age'. In simple words, this strategy helps adjust the risk appetite to your age and hence maintains a well balanced portfolio over the duration of your savings.

In case you opt for this strategy, your premium after deduction of applicable charges will be distributed between Equity1 Fund, Debt1 Fund and Value Fund based on your age. As you grow older and move from one band to another, your funds are redistributed. This strategy will balance your portfolio and adjust the risk exposure as you grow older. The age wise fund distribution is shown in the below table.

Age (Years)	Equity 1	Debt1	Value
5 - 25	40%	30%	30%
26 - 35	35%	40%	25%
36 - 45	30%	50%	20%
46 - 55	25%	60%	15%
56 - 65	20%	70%	10%
66 - 70	15%	80%	5%
71 - 90	5%	90%	5%

On every calendar month units shall be rebalanced as necessary to achieve the proportions as mentioned in the above table.

You have the option to cancel the Age Based Investment Strategy for future transactions by submitting a written request to us anytime during the Policy Term.

Please note: Only one strategy can be effective at any given point in time. In case, you do not opt for any of the Investment Strategies in the policy, you can always optimize your premiums by choosing to park it in various fund options. It is mandatory for you to either choose one of the investment strategies or fund options in this policy.

condition that fund value is not less than 110% of annual premium for regular/limited premium paying policies and is not less than Rs. 100,000 for single premium at any time during the tenure of Systematic Partial Withdrawal if fund grows @ 4%, provided premiums are paid as and when due. The system will check the viability as mentioned above and will proceed only once these conditions are met.

- If Systematic Partial Withdrawal is accepted at proposal stage there cannot be partial withdrawal as long as the request for Systematic Partial Withdrawal is valid.

Post Issuance,

- If the above viability condition is met, then the request for Systematic Partial Withdrawal is processed and communication will be sent to you for the acceptance of your request.
- If the above viability condition is not met, then you will be advised to alter the combination of tenure and/or percentage of Systematic Partial Withdrawal. The system will check the viability as mentioned above and will proceed only once these conditions are met.
- Once the Systematic Partial Withdrawal is accepted, there cannot be any partial withdrawal as long as the Systematic Partial Withdrawal request is in effect.
